Databases: PostgreSQL, MongoDB

Tools and Platforms: Docker, REST APIs, Claude Code, Git, Search Engine Optimization, Google Analytics

PROJECTS

Curated Crates (GitHub: <https://github.com/JMRobertson89/Curated-Crates>)

- Developed a subscription-based e-commerce site with user authentication and product management.
- Built with HTML, CSS, JavaScript, React, Material-UI, Node.js and MongoDB

Employee Tracker (GitHub: <https://github.com/JMRobertson89/Employee-Tracker>)

- Created a command-line application that manages an employee database
- Built with JavaScript, Node.js, Inquirer and PostgreSQL

Social Network API (GitHub: <https://github.com/JMRobertson89/Social-Network-API>)

- Built RESTful API endpoints for a social media platform using Node.js, Express.js and MongoDB

PROFESSIONAL EXPERIENCE

Full-Stack Developer, Big Voodoo Interactive - Springfield, MA

June 2025 - Present

- Build and maintain custom websites and web applications, contributing across the full stack from UI to server-side logic and database management
- Conduct quality assurance testing on front-end and back-end functionality, identifying and resolving bugs across multiple client environments
- Manage CI/CD workflows and multi-environment deployment pipelines, troubleshooting hosting, plugin, and configuration issues across dev, staging, and production
- Audit and validate SEO, UX, and performance standards, ensuring client sites meet technical and marketing benchmarks
- Collaborate cross-functionally with designers, project managers, and stakeholders to deliver client-ready products on time and within scope
- Act as a technical point of contact for clients, handling communications and conflict resolution while translating business goals into development solutions

Account Manager, Big Voodoo Interactive - Springfield, MA

September 2020 - March 2022

- Delivered all communications, conflict resolutions and deliverables to assigned accounts while ensuring quality standards and client expectations were met
- Developed digital marketing and advertising strategies that met client goals
- Regularly audited client websites and marketing campaigns to adhere to Search Engine Optimization standards
- Pursued opportunities for revenue growth within assigned accounts
- Accurately communicated client's needs to all internal teams and management
- Managed the onboarding process of new clients

Territory Account Executive, Toast - Boston, MA

November 2019 - April 2020

- Managed a Connecticut territory consisting of approximately \$500K+ in expected annual revenue
- Qualified and sold to small business restaurants and restaurant groups
- Executed complex sales cycles from the initial call to contract negotiations and closing
- Initiated discovery meetings and conducted demos to best understand customer pain points and develop solutions

Account Manager, Kforce - Hartford, CT

January 2019 - November 2019

- Conducted remote and in person meetings to uncover staffing needs and client pain points
- Prospected new clients through networking, employee referrals, job boards and other internet searches
- Communicated hiring needs to internal recruiters and gathered candidates
- Facilitated the offer process on behalf of clients, including salary negotiations and other terms of employment

Sales Manager, Best Buy - Manchester, CT

May 2014 - December 2018

- Led multiple departments totaling \$3M plus in annual sales
- Analyzed Profit and Loss statements to develop necessary action plans
- Hired, trained and coached a staff of twenty associates
- Performed monthly, quarterly and yearly performance reviews
